

Results Portal Form

This form must be filled out completely and signed by an authorized individual at your institution.

We are introducing the secure online **LabPMM[®] Results Portal**, designed to provide convenient and secure access to patient test results while supporting a more efficient workflow. The portal uses end-to-end encryption and operates in a HIPAA-compliant environment to help protect sensitive information.

Once your account is created, you will be able to securely log in to view and download test results. To set up your access, please provide the requested information below. Laboratories must register for the **LabPMM Results Portal by July 1, 2026**, to ensure continued access to results without interruption.

Please send the completed form to CustomerService@invivoscribe.com or contact us by phone at **+1 (858) 224-6600** if you have any questions.
