

Conforms to HCS 2021 – Unites States

## SAFETY DATA SHEET

## Section 1: Identification

## GHS product identifier :

IGH SHM Positive Control DNA  
 IVS-0001 Clonal Control DNA  
 LymphoTrack B-Cell Low Positive Control  
 LymphoTrack T-Cell Low Positive Control  
 LymphoQuant B-Cell Internal Control  
 LymphoQuant T-Cell Internal Control  
 IVS-0004 Clonal Control DNA  
 IVS-0007 Clonal Control DNA  
 IVS-0008 Clonal Control DNA  
 IVS-0009 Clonal Control DNA  
 IVS-0010 Clonal Control DNA  
 IVS-0013 Clonal Control DNA  
 IVS-0019 Clonal Control DNA  
 IVS-0021 Clonal Control DNA  
 IVS-0024 Clonal Control DNA  
 IVS-0029 Clonal Control DNA  
 IVS-0030 Clonal Control DNA  
 IVS-0031 Clonal Control DNA  
 IVS-0000 Polyclonal Control DNA

## Part number :

40880008  
 40880010  
 40880098  
 40880108  
 40880118  
 40880128  
 40880190  
 40880370  
 40880430  
 40880490  
 40880550  
 40880730  
 40881090  
 40881210  
 40881390  
 40881690  
 40881750  
 40881810  
 40920010

## Other means of identification :

IGH SHM Positive Control DNA  
 IVS-0001 Clonal Control DNA  
 LymphoTrack B-Cell Low Positive Control  
 LymphoTrack T-Cell Low Positive Control  
 LymphoQuant B-Cell Internal Control  
 LymphoQuant T-Cell Internal Control  
 IVS-0004 Clonal Control DNA  
 IVS-0007 Clonal Control DNA  
 IVS-0008 Clonal Control DNA  
 IVS-0009 Clonal Control DNA  
 IVS-0010 Clonal Control DNA  
 IVS-0013 Clonal Control DNA  
 IVS-0019 Clonal Control DNA  
 IVS-0021 Clonal Control DNA  
 IVS-0024 Clonal Control DNA  
 IVS-0029 Clonal Control DNA  
 IVS-0030 Clonal Control DNA  
 IVS-0031 Clonal Control DNA  
 IVS-0000 Polyclonal Control DNA

Product type : Liquid

Relevant identified issues of the substance or mixture and uses advised against

Identified uses For use as qualitative PCR controls.

Restrictions on use : For professional users only.

## Supplier's details

: Invivoscribe, Inc.  
 10222 Barnes Canyon Road, Building 1  
 San Diego, CA  
 92121 USA  
 Tel: 1 858 224 6000  
 Toll Free: 1 866 623 8105  
 Email: customerservice@invivoscribe.com  
 Website: invivoscribe.com

Emergency telephone (with hours of operation) : 1 866 623 8105  
 8 AM – 5 PM PST

## Section 2. Hazards Identification

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture : Not classified.

GHS label elements

## Section 2. Hazards Identification

Signal word	:	No signal word.
Hazard statements	:	No known significant effects or critical hazards.
<u>Precautionary statements</u>		
Prevention	:	Not applicable.
Response	:	Not applicable.
Storage	:	Not applicable.
Disposal	:	Not applicable.
Hazards not otherwise classified	:	None known.

## Section 3. Compositions/information on ingredients

Substance/mixture	:	Mixture
Other means of identification	:	Not available.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

Eye contact	:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	:	Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.
Ingestion	:	Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.

### Over-exposure signs/symptoms

Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.

### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	:	No specific treatment.
Protection of first aiders	:	No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

### Extinguishing media

## Section 5. Fire-fighting measures

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.
- Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur and the container may burst.
- Hazardous thermal decomposition products** : No specific data.
- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving personal risk or without suitable training.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training.  
Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water soluble. Alternatively, or if water soluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8)..
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure to controls/personal protection

### Control parameters

## Section 8. Exposure to controls/personal protection

### Occupational exposure limits

None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

### Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicated this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. In contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### Skin protection

- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

### Appearance

- Physical state** : Liquid. [Clear.]
- Color** : Colorless.
- Odor** : Slight.
- Odor threshold** : Not available.
- pH** : Not available.
- Melting/freezing point** : Not available.
- Initial boiling point and boiling range** : Not available.
- Flash point** : Does not flash.
- Evaporation rate** : Not available.
- Flammability (solid, gas)** : Not available.
- Lower and upper explosive (flammable) limits** : Not available.
- Vapor pressure** : Not available.
- Vapor density** : Not available.
- Relative density** : Not available.
- Solubility** : Not available.
- Solubility in water** : Not available.
- Partition coefficient: n-octanol/water** : Not applicable.
- Auto-ignition temperature** : Not available.
- Decomposition temperature** : Not available.
- Viscosity** : Not available.
- Flow time (ISO 2431)** : Not available.

## Section 10. Stability and reactivity

<b>Reactivity :</b>	No dangerous reaction known under conditions of normal use.
<b>Chemical stability</b>	: The product is stable.
<b>Possibility of hazardous reactions</b>	: Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: No specific data.
<b>Incompatible materials</b>	: Reactive or incompatible with the following materials: oxidizing materials.
<b>Hazardous decomposition products</b>	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

There is no data available.

#### Irritation/Corrosion

There is no data available.

#### Sensitization

There is no data available.

#### Mutagenicity

There is no data available.

#### Carcinogenicity

There is no data available.

#### Reproductive toxicity

There is no data available.

#### Teratogenicity

There is no data available.

#### Specific Target organ toxicity (single exposure)

There is no data available.

#### Specific Target organ toxicity (repeated exposure)

There is no data available.

#### Aspiration hazard

There is no data available.

**Information on the likely routes of exposure** : Routes on entry anticipated: Oral, Dermal, Inhalation.

### Potential acute health effects

<b>Eye contact</b>	: No known significant effects or critical hazards.
<b>Inhalation</b>	: No known significant effects or critical hazards.
<b>Skin contact</b>	: No known significant effects or critical hazards.
<b>Ingestion</b>	: No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

<b>Eye contact</b>	: No known significant effects or critical hazards.
<b>Inhalation</b>	: No known significant effects or critical hazards.
<b>Skin contact</b>	: No known significant effects or critical hazards.
<b>Ingestion</b>	: No known significant effects or critical hazards.

#### Short term exposure

<b>Potential immediate effects</b>	: No known significant effects or critical hazards.
<b>Potential delayed effects</b>	: No known significant effects or critical hazards.

#### Long term exposure

<b>Potential immediate effects</b>	: No known significant effects or critical hazards.
<b>Potential delayed effects</b>	: No known significant effects or critical hazards.

#### Potential chronic health effects

## Section 11. Toxicological information

- [General](#) : No known significant effects or critical hazards.  
[Carcinogenicity](#) : No known significant effects or critical hazards.  
[Mutagenicity](#) : No known significant effects or critical hazards.  
[Reproductive toxicity](#) : No known significant effects or critical hazards.

### [Numerical measures of toxicity](#)

#### [Acute toxicity estimates](#)

There is no data available.

#### [Toxicity](#)

There is no data available.

## Section 12. Ecological information

### [Persistence and degradability](#)

There is no data available.

### [Bioaccumulative potential](#)

There is no data available.

### [Mobility in soil](#)

[Soil/water partition coefficient \(K<sub>oc</sub>\)](#) : Not available.

[Other adverse effects](#) : No known significant effects or critical hazards.

## Section 13. Disposal considerations

- [Disposal methods](#) : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solution and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	DOT Classification	IMDG	IATA
<a href="#">UN number</a>	Not regulated.	Not regulated.	Not regulated.
<a href="#">UN proper shipping name</a>	-	-	-
<a href="#">Transport hazard class(es)</a>	-	-	-
<a href="#">Packing group</a>	-	-	-
<a href="#">Environmental Hazards</a>	No.	No.	No.

**AERG** : Not applicable

- [Special precautions for user](#) : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

[Transportation in bulk according to IMO instruments](#) : Not available.

## Section 15. Regulatory information

- [U.S. Federal regulations](#) : **TSCA 8(a) CDR Exempt/Partial exemption:** Not determined.  
**Clean Water Act (CWA) 311:** Edetic Acid; Hydrochloric Acid.

[Clean Air Act Section 112 \(b\) Hazardous Air Pollutants \(HAPs\)](#) : Listed

[Clean Air Act Section 602 Class I Substances](#) : Not listed

## Section 15. Regulatory information

Clean Air Act Section 602 Class II Substances : Not listed  
 DEA List I Chemicals (Precursor Chemicals) : Not listed  
 DEA List II Chemicals (Essential Chemicals) : Not listed

### SARA 302/304

#### Composition/information on ingredients

Name	%	EHS	SARA 302 TPQ		SARA 304 RQ	
			(lbs)	(gallons)	(lbs)	(gallons)
Hydrochloric acid	≤0.001	Yes.	500	-	5000	-

SARA 304 RQ : 634763213.6 lbs / 288182499 kg

### SARA 311/312

Classification : Not applicable.

Composition/information on ingredients No products were found

### State regulations

Massachusetts : None of the components are listed.  
 New York : None of the components are listed.  
 New Jersey : None of the components are listed.  
 Pennsylvania : None of the components are listed.  
 California Prop. 65 : This product does not require a Safe Harbor warning under California Prop. 65.

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not Listed.

#### Montreal Protocol

Not Listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not Listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not Listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not Listed.

### Inventory list

United States (TSCA 8b) : All components are active or exempted.

## Section 16. Other information

### Procedure used to derive the classification

Classification	Justification
Not classified.	

### History

Date of issue/Date of revision : 4/15/2021

Date of previous issue : Not applicable.

Version : 1

Internal code : 651-004

Prepared by : Invivoscribe, Inc.

Key to abbreviations : ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

## Section 16. Other information

IBC = Intermediate Bulk Container

IMGD = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978 ("Marpol" = maritime pollution)

N/A = Not available

SGG = Segregation Group

UN = United Nations

### **Notice to reader**

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
